

# Age Delay Intensive Eye & Lip Treatment Cream

## Testimonials

**Amazing Eye and Lip Cream!**

I've used many eye creams in the past from very expensive brands to not so expensive brands. I was complaining to a friend about how I couldn't find an eye cream suitable for me. This friend generously gave me a sample tube of the "Age Delay, Intensive Eye and Lip Treatment Cream" WOW! After 4 days of using the cream, I noticed the skin around my eyes become much smoother, wrinkles decrease and the darkness around my eyes was fading. I also had a few days off work around this time. Coming back to work, I received a lot of comments at how "rested" I looked - I barely rested on those few days off!!!

I've been using this cream for over two weeks now and I love the results!

Well done Alpha-H for producing an eye cream that's perfect for any age.

**Hi Alpha-H**

I just want to let you know that I absolutely love your eye cream! It's so thick and lucious not insipid like most on the market nowadays.

It makes my skin feel soft and has definitely reduced my fine lines!!

Thank-you for the sample! Yummy!

Kind regards,
