The Hair Report

TRESemmé spokesperson
and celebrity hair stylist.

This week was my personal favourite
– the TRESemmé challenge! ☺

Week 9

This week I worked particularly closely with each designer for a haute couture bridal challenge. A bride's hair is very important to her overall look, so designers needed to take this into account. In an unexpected twist, not only did they need to consider the bride's hair, but also the hair of one bridesmaid. This made it a double challenge!

Get the look!

STEP 1: To provide extra protection from styling tools, use TRESemmé

Thermal Recovery Shampoo and Conditioner.

STEP 2: Blow dry hair until 3/4 dry, before adding TRESemmé Thermal Creations Curl Activator Spray.

STEP 3: Start at the nape of the neck and, working in small sections, wrap hair around Philips TRESemmé Diamond Straightener and twist and turn to form curls.

STEP 4: On the left-hand side, collect hair and twist around loosely, pinning to the head when you reach the right-hand side. Leave the rest of the curl loose and over the right shoulder.

STEP 5: Finish the curls with a light spritz of TRESemmé Salon Finish Extra Hold Hairspray.

TRESemmé is available from leading Supermarkets and selected Pharmacy and Department stores.
